PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building and maintaining web applications with React, Next.js, TypeScript, Node.js and NestJS. Experienced in REST API integrations, authentication, multilingual platforms, reusable component architecture and production-oriented workflows. Hands-on exposure to Docker, AWS ECR/App Runner and Azure DevOps CI/CD. Currently strengthening Cloud, DevOps and application security skills to build, deploy and operate reliable applications.

TECHNICAL SKILLS

Cloud & DevOps: AWS (ECR, App Runner), Azure DevOps CI/CD, Docker, Vercel, Git, GitHub, containerized deployments
Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS, CSS Modules, Ant Design, React Hook Form, TanStack Query, SWR, i18next
Backend & APIs: Node.js, Express.js, NestJS, REST APIs, JWT, Socket.IO, API integrations
Databases & Testing: MongoDB, Mongoose, PostgreSQL, SQL, Jest, Supertest
Integrations & Tools: Twilio, Meta APIs, Google Maps JavaScript API, Selenium, Agile/Scrum

PROFESSIONAL EXPERIENCE

Darwin Evolution | Barranquilla, Colombia **Aug 2024 - Feb 2026**

Front End Developer

- Delivered React, Next.js and TypeScript features for a SaaS platform supporting end-to-end traceability and regulatory compliance workflows.
- Built reusable UI components and shared frontend patterns that reduced duplicated implementation and made new workflows easier to maintain.
- Integrated REST APIs, reporting filters, bulk-upload error flows and process summaries to help users review traceability and compliance data more efficiently.
- Implemented multilingual experiences with i18next and locale persistence, improving product usability for international users.
- Developed geospatial functionality with the Google Maps JavaScript API and contributed to secure authentication and user-preference workflows.
- Collaborated through Scrum and Azure DevOps, supporting CI/CD-oriented delivery and cross-functional releases.

Kuepa EduTech | Barranquilla, Colombia **Mar 2024 - Aug 2024**

Full Stack Developer

- Delivered full-stack features across the CRM, student portal and administrative dashboard, supporting academic and operational workflows.
- Automated student communications and reminders through Twilio and Meta API integrations, reducing dependence on manual follow-up.
- Built and maintained React and Node.js functionality for course, user and internal-process management.
- Improved usability and operational efficiency by translating product requirements into reusable application features.

Overnights | Remote / Colombia **Jul 2023 - Dec 2023**

Junior Full Stack Developer

- Built and maintained a lodging platform for Jewish travelers in the United States using React, Next.js, Node.js, NestJS and MongoDB.
- Implemented authentication, user profiles and separate dashboards for guests and hosts, enabling role-based account workflows.
- Developed booking-related and account-management features while improving stability of core application flows.
- Supported deployment-ready development through Git-based collaboration and modern full-stack practices.

EDUCATION

Universidad del Norte | Systems Engineer **Sep 2023**
